

BONITA TAYLOR

12 PIERSON PLACE, GLEN RIDGE, NEW JERSEY 07028 (C) 973-801-7170 BTAYLOR119@AOL.COM

ACCOMPLISHMENTS

Bonita (Bonni) participated in a residency program at IBM's International Technical Support Organization (ITSO) in San Jose, CA as a co-author of the IBM Redbook: DB2 for z/OS Stored Procedures: Through the CALL and Beyond (SG24-7083). Her participation in this endeavor included topic investigations, code testing, and writing or contributing to five chapters.

Bonni has been recognized as a highly accomplished computer professional specializing in legacy software (COBOL, BAL, JCL, Utilities) and DB2 for z/OS.

- Debugging is a favorite skill of Ms. Taylor! She has a reputation for debugging application programs that she has never seen before. She lives for a S0C4!
- She prides herself in aiding programmers with skills to:
 - Understand how the technology works, enabling them to be responsible for their designs and coding;
 - Become independent by familiarizing them with available research resources to answer questions;
 - Understand which personnel to direct their questions to.
- With a programmer by her side, she uses this opportunity to strengthen their skills as she shares how an error occurred so that they can appreciate and learn from the experience.

PROFESSIONAL SUMMARY

- Bonita (Bonni) Taylor has been in the computer programming/analyst industry since 1973. The majority of her experience has been in the IBM Legacy Cobol and Basic Assembler Language world as a developer and instructor.
- As an instructor, Bonni has designed and conducted instructor-led classes ranging from Introduction to Computers to DB2: Curriculum Boot Camp.
- Bonni currently desires programming opportunities in **COBOL, BAL, JCL, DB2.**

Bonita Taylor

SKILLS

- User interface understanding
- Self-motivated
- Conflict resolution
- Debugging proficiency
- Code validation skills
- Skilled in **COBOL, BAL, DB2, JCL**
- Light in **CICS**, but has assisted programmers and is interested in developing skills.
- Inspection reviews
- Strong verbal communication
- Product testing
- Staff development
- Data management

WORK HISTORY

MARCH 1990-OCTOBER 2017

Instructor of Technology | TechEd Resources, LLC | Glen Ridge, NJ

- Performed initial client assessment and analysis to develop "Boot Camp" training in IBM z/OS systems utilizing **Cobol, BAL, JCL, DB2, and DB2/QMF**
- Responded to client programmer requests for **abend debugging** assistance via telephone, email, and in-person.

APRIL 1980-1990

Senior Vice President | Software Education, Corp. | New York, NY

- Recruited as a Sr. Trainer in IBM Mainframe curriculums.
- Became a strong IBM DB2 instructor and consultant.
- Responsible for the hiring and training of new instructors.

1978-1980

Senior Technical Trainer | AGS Computers, Inc. | Union, NJ

- Recruited to teach application programming curriculum for employees of New York City Banks (Chase, JPMorgan, Citibank)

1975-1978

Programmer Trainer | Chubb Institute | Short Hills, NJ

- Invited by her alma mater, Chubb Institute, to become a trainer.

1973-1975

Programmer Analyst | AGS Computers, Inc. | Union, NJ

- Participated in design sessions with clients to ascertain all project specifications for applications, databases and systems.
- For a major telecommunications company, modified existing programs used in a Tool Inventory System and a Relay-Switching System. Data management was converted to **VSAM** file structures in BAL and COBOL programs.

Bonita Taylor

EDUCATION

1973

Computer Technology and Programming

Chubb Institute of Computer Technology, Short Hills, NJ

- Coursework in Program Design, Programming in BAL and COBOL, IBM Mainframe Operating Systems, JCL and Utilities,
- IBM Data File Structures and Management, and Debugging.

1969

High School Diploma:

- Montclair High School, Montclair, NJ

HOBBIES

- Deep Sea Fishing in St. Maarten, DWI
- Hometown Community Affairs
